Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-6 and 8-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Harris (US Patent 4,890,704) or Bell (US Patent 3,326,337).

The device of Harris or Bell reads on the structural limitations of the claim including a container comprised of a spaced apart front (combination of A and a2) and back (opposite side of A and a2), a bottom structure (the side under a2) and a top structure (the top side of A) and an access cover (A) and handle (fig. 2 and 6).

Claims 1-6, 8, 9 and 12 are rejected under 35 U.S.C. 102(b) as being anticipated by Harris (US Patent 4,890,704) or Bell (US Patent 3,326,337).

The device of Harris or Bell reads on the structural limitations of the claim including a container comprised of a spaced apart front (22 or 23 and 24, respectively) and back (the opposite side of 22 or the opposite side of 23 and 24, respectively), a bottom structure (17 and 18 or the opposite side of 14) and a top structure (14) and an access cover (26 or 12, respectively).

Claim Rejections - 35 USC § 103

Art Unit: 3725

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 10 and 11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Harris or Bell in view of Maben (US Patent 3,441,112).

Harris or Bell teaches in the figures most of the elements of the claimed invention, except for the top surface including a handle. Maben teaches a traveling case, a container, with an ironing board feature having a handle attached to the top surface as shown in figure 4. It would have been obvious one having ordinary skill in the art to attach a handle as taught by Maben to the container of Harris or Bell for the purpose of carrying the container.

Response to Arguments

Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.
